Adhere™ is AdhereHealth's medication-focused platform of integrated solutions that uses advanced analytics to stratify consumer populations, prioritize inter-ventions and resolve gaps in care to achieve value-based care outcomes. Adhere™ encompasses massive comparative benchmark data sets, powerful analytics and a nationwide clinical network to improve health outcomes and

financial performance. With increasing pressure on health plans to achieve higher quality ratings, having partners willing to share risk around program performance is crucial. AdhereHealth's performance-based alignment with health plans creates a shared risk that uniquely guarantees that each consumer measurement conversion fee is achieved.

Stratify™

Stratify™ predictive analytics identify medication adherence and care assessment gaps using comparative benchmarks that support targeted consumer and provider engagement.

Quantify™

Quantify™ builds actionable client-specific scenario modeling for value-based care incentive structures and incorporates Stratify™ analytics to achieve targeted outcomes.

P3Link™

P3Link™ is a regulatory compliant clinical workflow for Medication Therapy Management (MTM) that uses Stratify™ analytics to guide interventions.

QiLink™

QiLink™ is a clinical workflow using decision support to guide gap closure for clinical and non-clinical interventions with consumers and providers using Stratify™ analytics.

Discern™

Discern™ is a business analytics solution that provides real-time client data visualization of outcomes and program performance.
