

P3Link™

Clinical Decision Support Tool

P3Link™, part of our Adhere™ platform, is a clinical decision support tool to efficiently perform Comprehensive Medication Reviews (CMR) for Medication Therapy Management programs.

Supporting both client-specific configurations and regulatory standards, P3Link™ empowers clinicians with real-time clinical decision support while engaging with consumers to improve medication adherence.

Maximize CMR completion rates and increase Star Ratings with efficient CMR workflow

ROBUST DATA INTEGRATION

Incorporates medical claims, pharmacy claims and consumer-reported information

AUTOMATED

100% automated MAP/PML creation and enables 70 million MTM consumer elements with clinical decision support

SAAS-ENABLED

Deployable for internal healthplan, clinical staff, provider network and retail pharmacy

COMPREHENSIVE REPORTING

Sophisticated data management and segmentation ensures transparent outcomes reporting

Data Analysis

Real-time clinical analysis, enhanced user navigation

Call Queue Scheduling

First-in/first-out call queuing, user reporting, CMR scheduling

Rules Engine

Adherence monitoring, at-risk stratification and evaluation, CMRs and TMRs

Fulfillment & Compliance

Automated MAP/PML creation, mitigate data validation risk

FULLY-INTEGRATED TECHNOLOGY-ENABLED SERVICES

Resolve™

Resolve™ is AdhereHealth's clinical decision support solution that guides medication adherence intervention using Stratify™ predictive analytics.

OptimizeMTM™

OptimizeMTM™ is AdhereHealth's Medication Therapy Management (MTM) solution that addresses client goals and regulatory requirements using Stratify™ predictive analytics and a nationwide network of licensed clinicians.

“ Ida R., 64, has type 2 diabetes and misunderstood how her insulin would regulate glucose release during the early dawn hours. AdhereHealth analytics identified insulin fill gaps that increased Ida's risk of complications and future hospitalizations. Upon our clinician intervening, Ida was educated about the importance of insulin and diabetes educational support. Ida R's improved health literacy enabled her to return to her prescribed care plan, improving her quality of care. ”

About AdhereHealth™

AdhereHealth™ is a healthcare technology solutions leader supporting health plans, self-insured employers and other risk-bearing entities for medication adherence insights and improved healthcare outcomes. The company's Adhere™ platform touches nearly 10 million consumers through advanced technologies, at-risk engagement services and home-delivered pharmacy. The integrated set of solutions address an estimated \$300 billion of unnecessary annual medical costs attributed to medication adherence issues. The company is headquartered in the Nashville suburb of Brentwood, Tennessee. For more information, please visit www.adherehealth.com.
